

Cadillac **SAAB**
OF ORANGE PARK

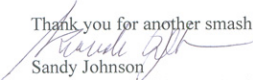

October 23, 2010

We here at Cadillac Saab of Orange Park just sponsored S.I.P. Kids and the Keeping Kids Safe Project and had a great turnout! The Free Digital Fingerprinting event allowed us, and surrounding businesses and schools, to become a part of this wonderful learning experience.

Our S.I.P Kids event was very easy to host and we are very grateful that this event was able to help us connect with local community members and provide them with a service that is benefiting their well-being. Our S.I.P. Kids representative, Kathy is wonderful and helpful with the kids and families. I would recommend Kathy to anyone who is considering hosting a S.I.P. Kids weekend. We took over 100 prints during the event and everyone was thankful for this free service. This is one of the best community services you can provide.

We loved seeing how much fun and joy this brought to everyone who participated and can't thank S.I.P. Kids enough. We look forward to having them back next year for another great turnout!

Thank you for another smashing year!
