To Whom It May Concern:

After our second event here at Findlay Honda, we are proud to have made the decision to partner up with S.I.P. Kids to have hosted another Keeping Kids Safe Project Digital Fingerprinting Event. Their events are a great way for any business to let their community know "We're here for you".

In an industry such as ours, it is sometimes difficult to gain trust from our communities. The events provided by S.I.P. Kids, are a great way to bring families in and show them how dedicated we are to serving their needs by providing them with a family-friendly atmosphere and a wonderful program to help them protect their children. The families had so much fun, as did all of our staff!

Overall, the S.I.P. Kids Team helped us to build relationships with the families in our community and stand out from other businesses in such a large industry. Findlay Honda cannot wait to host another digital fingerprinting event!

Sincerely,

Jessie Sanchez
Sales Manager
Event Coordinator
