

We want to take this time to thank S.I.P. Kids for helping us put together a very successful Child Safety Event. We were able to fingerprint 90 children and provide families with safety and program information from the local community organizations.

Hillary, our coordinator, did most of all of the work, allowing us to focus on our business and know things were in great hands. The Keeping Kids Safe Project also did a wonderful job accommodating a small space during our renovation.

Our event representative, Dan, did wonderfully with all the families! He was very professional and efficient. We are excited to have him and the S.I.P. Kids back next year for a bigger, better event!

Thank you,
