

To whom it may concern:

What a terrific event! We had a great experience with our Keeping Kids Safe Project this weekend. The turnout for our event was fantastic and it was nice to welcome so many new faces into our facility. The overall feeling of the event was very positive and all the children that attended had a wonderful time. We were happy to be involved in an event that provided such an important service to the families in our community. Our sister store 30 miles away will also be holding this event for the community next weekend. For both of our locations the SIP Kids organization has done a great job preparing the details of our events and keeping things hassle free for us, just as promised. We definitely look forward to hosting this event again and highly recommend it to others!
