To whom it may concern:

We highly recommend the Keeping Kids Safe Project to anyone looking for a great way to connect with their community. This was our first event and it was a fantastic experience. KKSP did an excellent job with all the preparation for the event, from the handling of the school consents, to designing the flyers and arranging for them to be printed and packaged for delivery to all of the schools. KKSP really went to work for us and set up multiple agencies to participate in the event, including a kids DJ for entertainment. It was lots of fun and all of the families really enjoyed themselves. We had a great turn out and it was obvious the amount of work that went on behind the scenes. The KKSP coordinators made this a very easy event for McLarty Ford, putting everything together while keeping us in the loop. They had not one, but two different radio stations stop out during the event, as well as getting the word out ahead of time, which certainly showed. Overall, KKSP provided McLarty Ford with a successful event.

If you are looking for a positive community event to host on a budget, but don't have the time to put together all the details yourself, the Keeping Kids Safe Project can be a perfect fit for you as well. We are very pleased and definitely look forward to hosting this event again in the future.

Sincerely,  
Todd Shores
