

Mercedes-Benz

Mercedes-Benz of Cary

August 29, 2010

Following our Keeping Kids Safe Project Free Digital Fingerprinting Event, we were very pleased with how the S.I.P. Kids coordination team was able to successfully entertain the 100 children and families we were able to help this weekend. Mercedes Benz of Cary is appreciative of how they brought our community together to share this opportunity with local businesses and community members.

Tara, our S.I.P. Kids Representative, was enthusiastic and we could tell she enjoyed helping out the families. The team successfully diminished our worries about planning and allowed us to focus on our clients while still feeling confident that the event would go on without problems.

We absolutely enjoyed hosting the Keeping Kids Safe Project and hope to do so again in the near future to see what new and exciting things they can come up with!

Sincerely,

Brian Finnegan
Asst. General Manager
