

To Whom It May Concern,

We have thoroughly enjoyed participating in the Keeping Kids Sage Project through SIP Kids. The Coordination team assign to our event did a great job putting things together and delivering a wonderful weekend. Just as promised they made things very easy for us and handle all the details very professionally. This event was a unique experience that allowed us a new way to bond with our community. We were excited to have so many activities to offer during the event. Our event was well planned and thought out which helped it run effortlessly. All of our customers that came by seemed to enjoy the energy, which this event created. We would recommend this program to others and we will be looking forward to next year.

A handwritten signature in blue ink, appearing to read 'Charles Harper'.
