

## Roberts Chrysler Dodge

After hosting the Keeping Kids Safe Project Free Digital Fingerprinting Event, we, at Roberts Chrysler Dodge, were incredibly enthused to see things go so smoothly. The S.I.P. Kids coordination team offers a very beneficial event to help out families within our community. It is great that they can bring together local business to share in this fun and exciting event.

Our S.I.P. Kids Representative, George, is a great addition to the team and helped reassure us that the event was under control and left us with little worry. This helped us focus on our clients, while the families and kids were still able to benefit from the digital fingerprinting and safety tips that were provided.

The Keeping Kids Safe Project was a pleasure to host and we hope to put on another event sometime in the future. We look forward to seeing what new and exciting things the team can come up with to further unite our community!

Thank You  
DAVID ARCHER
